**Attachments:** TEMPLATE - Pb above RMLs SH Bell sampling results.doc; TEMPLATE - Mn above RMLs SH Bell sampling results.doc

Comments added about the 1200 action level and my phone number.

We may have to modify it again for Pb levels above 1200, but since we only have one so far and that one is questionable probably can hold off for now.

Sure, take a look at these. I made a few changes and added a sentence about discussing additional action.

Thanks,  
Rachel

Rachel and Brad

I made some small changes take a look and then we will send for comment to Heriberto and Michelle. On further thought we will keep CDPH off the contact and they can call Michelle. I have the ATSDR manganese TOX-Facts as an attachment.

This template would be for levels below RML's. Can you make one up for Levels above RML's (Manganese and Lead)

Thanks

Steve,

Sounds good! Which contacts from the city would you like to include?

Thanks,  
Rachel

**Subject:** RE: Latest Federated Letter Templates

Rachel,

Let keep that out for now. Main thing is that we have ATSDR and Chicago Dept of Health contacts for them to follow up with health related questions. We will probably add a fact sheet or use the CDPH fact sheet on minimizing contact and raised bed gardening.

Do you have any language for the "What happens next?" segment?

I would suggest we include only metals that are over an RML. I am sure the Michelle Colledge will have some input on this also.

Following up on this, in the federated metals they reported lead and arsenic results. What metals would you like to include in our letters?

**Subject:** FW: Latest Federated Letter Templates

Rachel,

It's a good time to look at how we are going to communicate the results to the residents on the SE side near SH Bell. These are a couple of template letters from Federated metals. I suggest we use one letter at this time to just communicate the results to the residents. We don't yet know if the home would be remediated even if the results are above the RML, we still have to show a human health threat.

Let us know Rachel if you want to take the first cut of a draft of this letter or if you want to have your Cheryl Vaccarello put together a draft. A key will be to give a call to each resident first to communicate the results and then send the letter.

Let us know how you want to handle this and then we will send the draft letter through Heriberto's group and others.
